NOT LIKELY TO GET MONEY FROM CITY

Despite Chamber of Commerce, Petersburg Finance Committee Will Make Adverse Report.

OPPOSE PARK LOCATION

Many Claim That Proposed Site Is Not Central-Vaughan

Inquest. [Special to The Times-Dispatch.] PETERSBURG, VA., April 1.-The officers and board of governors of the Chamber of Commerce appeared bespecial meeting to-night to present arguments in favor of the proposed appropriation of \$5,000 to advertise the city at the Jamestown Exposition. The committee, at a recent meeting, decided committee, at a recent meeting, decided to submit an adverse report on the appropriation to the Council meeting to-morrow night, but consented to reconsider the matter to-night at the request of the Chamber of Commerce, which is working hard for the appropriation, and is trying to secure at least a minority report by the committee in its favor. Speeches advocating the appropriation were made to-night by President Wright, of the right by President Wright, of the Chamber of Commerce; Secretary Quaries, H. P. Stratton, Bartlett Roper and J. W. Seward, who went over about the same ground covered at the

recent called meeting of the Council to consider its claims. It is considered very improbable that the Council will make the appropriation, in the face of an adverse report by the Finance Committee and the opinion rendered by the City Attorney, that the city charter does not empower the Council to do it.

Oppose Park Location.

Considerable influential opposition has been aroused by the plan to locate the proposed new public school building in Central Park, and both sides aroworking hard. Opponents of the new scheme insist that a public park is no place for a school, that the beauty of the grounds will be injured, and in this instance that the site is not castly accessible to children in the quarter of the city for which the school is intended. The nearness of a big negro public school is also urged as a serious objection because of probable clashes between the races. The matter will be considered at the City Council's regular meeting to-morrow evening.

Preight in Open Switch.

A southbound freight train on the Atlantic Coast Line Railroad ran into an open switch yesterday at Collier's Siding, a short distance from this city. The locometive and two box cars were turned over in a ditch, and badly broken, but the slow speed of the train saved a more serious accident, and the tracks were soon cleared, traffic being blocked only about half an hour. Engineer Brent and his freman had time to jump, the former leaping uninjured, but the fireman was painfully hurt by falling on the rails, and was taken to the Home for the Sick in this city, where he is resting comfortably.

It is inderstood that the signals were against the engineer.

Hobos for Jamestown.

A great many hobos are going through this city, stealing rides on trains on their way to the Jamestown Exposition. Railroad detectives are arresting all persons caught trespassing on railroad property, and Saturday night five negroes and one white man were taken from passing trains by Detective Wright, of the Baldwin Agency, in the Norfolk and Western Railroad yards here. They were put in jail, and will be arraigned in the Mayor's Court.

An inquest over the body of the son of Judge W. H. Vaughan, of St. Louis, held Saturday night, resulted in a verdict by the coroner's jury that the young man came to his death from injuries received by falling from a freight train on the Norfolk and Western Railroad. As has been previously reported in The Times-Dispatch Vaughan fell under a moving train near Waverly Sunday morning, March 22d, and was brought here to the Home for the Sick, where he died last Friday. His father was present at the inquest, and questioned the witnesses.

Swiss watches were well enough sixty years ago when there were no American watches. American genius discovered that watches could be best made by machinery, and from that discovery developed WALTHAM WATCHES. tors, representing practically every termale school in the State of any note, in attendance.

The convention opened with an address of welcome by Dr. William W. Smith, chancellor of the Randolph-Macon system, and president of the college which is the host of the convention. This was responded to by Miss Orle L. Hatcher, of Brya Mawr, president of the association. The report of the executive committee, embodying a plan of organization, together with a constitution, was made by Miss M. W. Coulling, of the Farmville Normal School, the secretary. This was followed by an address on "What the Colleges Ask of the Secondary Schools," by Dr. Mary K. Benedict president of Sweet Briar Institute.

The consideration of the constitution consumed much of the time of the association will be in session morning and night. A special program will be given by the Woman's College students, instead of an afternoon session.
